RISK FACTORS

An investment in the Bonds, as described in this Prospectus, involves a certain number of risks. The price of securities can and does fluctuate, and any individual security may experience upward or downward price movements and may lose part, or all, of its value over time. There is an inherent risk that losses may be incurred rather than profit, as a result of buying and selling securities. Past performance is not a guide to future performance and there may be a large difference between the buying price and the selling price of any security. The market price of the Bonds could decline due to any one of, but not limited to, the risks described herein, and all or part of an investment in the Bonds could be lost.

Prior to making any investment decision, prospective investors should carefully consider all of the information in this Prospectus, including the risk factors described below.

This section entitled "Risk Factors" does not purport to be a comprehensive disclosure of all of the risks and other significant aspects of investing in these securities, but is intended to give a general idea to a prospective investor of the scope of risks involved in investing in the Bonds. The occurrence of any of the events discussed below and any additional risks and uncertainties not presently known to the Company or that are currently considered immaterial could have a material adverse effect on the Company's business, results of operations, financial condition and prospects and on the Bonds in the future. Prospective investors may request publicly available information on the Bonds and the Company from the SEC. Prospective Investors should undertake their own independent research and study on the merits of investing, and subsequently, trading these securities. Prospective investors should seek professional advice if he or she is uncertain of, or has not understood any aspect of the Offer or the nature of risks involved in purchasing, holding and trading the Bonds. Each potential investor should consult its own counsel, accountant and other advisors as to legal, tax, business, financial and related aspects of an investment in the Bonds. Rockwell Land, the Issue Manager, and the Joint Lead Underwriters do not make any warranty or representation on the marketability of an investment in the Bonds and the sustainability of the price of the Bonds. The risk factors discussed in this section are separated into categories for ease of reference.

RISK FACTORS RELATING TO THE COMPANY AND ITS BUSINESS

Property development is a highly competitive business environment

Rockwell Land operates as a provider of dwelling places for the high-end and upper-middle real estate markets in the Philippines. This is a highly competitive segment due to the proliferation of high-end real estate developers in the market. Rockwell Land competes with a significant array of real estate developers and developments to attract potential owners of land and residential units, office and retail tenants as well as property management firms. Should Rockwell Land fail to attract buyers for its developments due to the proliferation of competition within its segment, its business and results of operations could be adversely affected.

Rockwell Land continues to maintain its core values of quality, design, attention to detail and innovation. It also tries to continually maintain its personal service to its residents, tenants and unit owners in order to maintain its competitiveness in the high-end and upper-middle real estate markets in the Philippines.

Company is exposed to risks inherent in the Philippine property market as the Company's properties are all in the Philippines

Rockwell Land derives its revenue and operating profits from property investment and development operations in the Philippines. Thus, the Company is directly affected by the risks that affect the Philippine property market as a whole. In general, the Philippine property market is determined by the strength of the Philippine economy, the spending capacity of buyers and the availability of other equally priced properties. However, the property market now has also been affected by social trends, changing spending patterns and

consumer sentiment in the Philippines, which in turn are likewise influenced by economic, political and social conditions in the Philippines.

Present day economic and political uncertainties in the Philippines may have adverse effects on consumer spending habits, construction costs, availability of labor and materials and other factors affecting the Company. Significant expenditures are associated with investment in real estate. Because Rockwell Land's properties and investments are all in the Philippines, reduced levels of economic growth, adverse changes in the country's political or security situation, or weaker performance of the country's property development market generally could materially adversely affect its profitability.

Timely development of Rockwell Land's project is dependent on various factors

Rockwell Land's future financial performance may be significantly affected by factors that limit its ability to finance and complete its current and future projects in a timely and cost-effective manner and to market them successfully. Rockwell Land may invest significant time and money in a project which may not be commercially viable. Obtaining governmental approvals and permits may also take substantially more time and resources than anticipated or construction of projects may not be completed on schedule and within budget. In addition, time and the costs involved in completing the development and construction of its projects can be adversely affected by many factors, including shortages of materials, equipment and labor, adverse weather conditions, Peso depreciation, natural disasters, labor disputes with contractors and subcontractors, accidents, changes in laws or in Government priorities and other unforeseen problems or circumstances. Where land to be used for a project is occupied by tenants and/or informal settlers, Rockwell Land may have to take steps, and incur additional costs, to remove such occupants and, if required by law, to provide relocation facilities for them. Any of these factors could result in project delays and cost overruns, which could negatively affect Rockwell Land's margins. This may also result in sales and resulting profits from a particular development not being recognized in the year in which it was originally expected to be recognized, which could adversely affect Rockwell Land's results of operations for that year. Further, the failure by Rockwell Land to complete the construction of a project to its planned specifications or schedule may result in contractual liabilities to purchasers and lower returns.

If any of Rockwell Land's projects experience construction or infrastructure failures, design flaws, quality control issues and other factors resulting in significant project delays, this could have a negative effect on Rockwell Land's reputation and make it more difficult to attract new customers to its projects, thus impairing Rockwell Land's ability to reduce its capital investment requirements. Rockwell Land cannot provide any assurance that such events will not occur in a manner that would materially and adversely affect its results of operations or financial condition.

Rockwell Land, through its project management team, has made it a policy to conduct strict monitoring of project milestones in order to timely address any issues during project planning, design, construction up to the hand over of the units to the owners.

Rockwell Land may be unable to successfully manage its growth

Rockwell Land intends to continue to pursue an aggressive growth strategy for its real estate business. Rockwell Land's growth strategy for its land development business may require a reallocation of management resources away from its current daily operations, and will also require the Company to manage relationships with a greater number of customers, suppliers, contractors, service providers, lenders and other third parties. In the course of implementing its growth strategy, Rockwell Land may experience capital constraints, construction details, operational difficulties at new operational locations or difficulties in operating existing businesses and training personnel to manage and operate the expanded business. Any inability or failure to adapt effectively to growth, including strains on management and logistics, could result in losses or development costs that are not recovered as quickly as anticipated, if at all. These problems could have a material adverse effect on Rockwell Land's reputation and on its business, results of operations or financial condition.

Rockwell Land carefully selects its projects, ensuring resources are properly identified, quantified and allocated to ensure such projects are successfully completed, on schedule, within budget and based on quality specifications.

Competition for the acquisition of land for new projects may adversely affect Rockwell Land's business

Rockwell Land's growth and development are dependent on its ability to acquire or enter into agreements to buy and develop additional tracts of land suitable for Rockwell Land's planned real estate projects. The Company may encounter difficulty in negotiating with landowners to sell their land to Rockwell Land. The Company may also experience difficulty locating parcels of land of suitable size in locations and at prices acceptable to the Company, particularly parcels of land located in areas surrounding Metro Manila and in other urban areas throughout the Philippines. Should Rockwell Land fail to acquire and/or develop suitable land at acceptable prices and with reasonable returns, or at all, its growth prospects could be limited and its business and results of operations could be adversely affected.

Rockwell Land carefully selects its projects and limits its acquisitions to land that would be used in the short term and medium term. The Company maintains good relationships with brokers and landowners of prospective projects in order to be prioritized in the event of sale.

Substantial sales cancellations involving Rockwell Land's projects could adversely affect the business of Rockwell Land

Rockwell Land's business, financial condition and results of operations could be adversely affected by the material number of cancellations of unit sales in its projects. RA 6552 or the Maceda Law covers the business of Rockwell Land as it applies to all transactions or contracts involving the sale or financing of real estate through installment payments. Under the said law, buyers who have paid at least two (2) years of installments are granted a grace period of one (1) month for every year of paid installments to cure any payment default. If the contract is cancelled, the buyer is entitled to receive a refund of at least 50% of the total payments made by the buyer, with an additional 5% per annum in cases where at least five (5) years of installments have been paid (but with the total not to exceed 90% of the total payments). Buyers who have paid less than two (2) years of installments and who default on installment payments are given a 60-day grace period to pay all unpaid installments before the sale can be cancelled, but without right of refund.

While Rockwell Land has not experienced a material number of cancellations to which RA 6552 has applied, there can be no assurance that it will not experience a material number of cancellations in the future, particularly during slowdowns or downturns in the Philippine economy, periods when interest rates are high or similar situations. In the event that Rockwell Land does experience a material number of cancellations, it may not have enough funds on hand to pay the necessary cash refunds to buyers or it may have to incur indebtedness in order to pay such cash refunds. In addition, particularly during an economic slowdown or downturn, there can be no assurance that Rockwell Land would be able to re-sell the same property or re-sell it at an acceptable price. Any of the foregoing events would have a material adverse effect on Rockwell Land's business, financial condition and results of operations. Furthermore, in the event that Rockwell Land experiences a material number of sales cancellations, investors are cautioned that Rockwell Land's historical revenues would have been overstated because such historical revenue would not reflect subsequent customer defaults or sales cancellations.

Rockwell Land is exposed to risks relating to the performance of the economies of the countries where its potential customers are based

A portion of the demand for Rockwell Land's projects is from foreigners and Filipinos residing outside of the Philippines, thus, a downturn in the economic performance of the countries and regions where a significant number of these potential customers are located, such as the U.S. and Singapore could adversely affect the demand for Rockwell Land's projects, which could have an adverse effect on Rockwell Land's business, financial condition and results of operations.

While the Company continues to market its products to potential clients abroad, 81% percent of its clients are Filipinos based in the country.

Independent contractors, who may meet Rockwell Land's quality standards or complete projects on time and within budget, may not be readily available to Rockwell Land

Rockwell Land primarily relies on independent contractors to provide various services, including land clearing and infrastructure development, various construction projects and building and property fit-out works. There can be no assurance that Rockwell Land will be able to find or engage an independent contractor for any particular project or find a contractor that is willing to undertake a particular project within Rockwell Land's budget, which could result in costs increases or project delays.

Further, although Rockwell Land's personnel actively supervises the work of such independent contractors, there can be no assurance that the services rendered by any of its independent contractors will always be satisfactory or match Rockwell Land's requirements for quality. Contractors may also experience financial or other difficulties, and shortages or increases in the price of construction materials may occur, any of which could delay the completion or increase the cost of certain housing and land development projects, and Rockwell Land may incur additional costs as a result thereof. Any of these factors could have a material adverse effect on Rockwell Land's business, financial condition and results of operations.

The Company continues to carefully select and expand its network of accredited contractors through the process of prequalification prior to any bidding. The Company likewise strictly monitors the development of each project from the planning, design, construction up to the hand over to unit owners. Furthermore, Rockwell Land requires its contractors to provide a performance bond and surety bond to ensure their satisfactory performance in the projects.

Rockwell Land may be liable for construction defects and other building-related claims

The Civil Code makes property developers such as Rockwell Land liable to ensure the structural integrity of the structures they build for a period of 15 years from the date of the completion of the same. Property developers are also liable for hidden defects in the units they sold when such hidden defects render the unit unfit for the use for which it was intended or when its fitness for such use is diminished to the extent that the buyer would not have acquired it or would have paid a lower price had the buyer been aware of the hidden defect. The law gives the buyer six months from the delivery of the unit to enforce the said warranty.

RA 6541 or the National Building Code further makes Rockwell Land and its officials liable for administrative fines or criminal penalties in case of any violation of its provisions with respect to the design and construction of buildings.

Rockwell Land does not make any assurance that it will not be held liable for damages, the cost of repairs, and/or expense of litigation surrounding possible claims or that claims will not arise out of uninsurable events, such as landslides or earthquakes, or circumstances not covered by insurance and not subject to effective indemnification agreements with the contractors of Rockwell Land. Rockwell Land cannot ensure that the contractors it will hire will be able to either correct any such defects or indemnify Rockwell Land for costs incurred by Rockwell Land to correct such defects. A material number of claims arising from structural or construction defects could have a material adverse effect on the reputation, business, financial condition and results of operations of Rockwell Land.

The Company ensures the satisfactory performance of its contractors with careful selection through prequalification prior to any bidding. The Company likewise strictly monitors the development of each project from the planning, design, construction up to the hand over to unit owners. Furthermore, Rockwell Land requires its contractors to provide a performance bond and surety bond to ensure their satisfactory performance in the projects.

Rockwell Land also protects its investments with an all-risk insurance policy for construction.

Rockwell Land may suffer losses that are not covered by its insurance

Rockwell Land may be negatively affected due to the occurrence of typhoons, severe storms, earthquakes, floods, fires or other natural disasters or similar events. Although the Company carries an all-risk insurance policy for all its current and ongoing projects against catastrophic events and business interruption insurance for the Power Plant Mall, in amounts and with deductibles that the Company believes are in line with general real estate industry practice, not all risks can be insured against. There are losses for which the Company cannot obtain insurance at a reasonable cost or at all. Should an uninsured loss or a loss in excess of insured limits occur, the Company could lose all or a portion of the capital invested in a property, as well as the anticipated future turnover from the property. Any material uninsured loss could materially and adversely affect the Company's business, financial condition and results of operations.

Company relies on third party brokers to sell its condominium projects

Third party brokers who market and sell Rockwell Land projects also act as brokers for other developers in the same markets Rockwell Land operates. Rockwell Land cannot ensure that these brokers will not favor other developers over the interests of Rockwell Land. Rockwell Land's business, financial condition and results of operations and prospects could be adversely affected by the refusal of these third party brokers to sell and/or lease for Rockwell Land.

Rockwell Land has its own in-house sales team as well as programs to maintain and expand its broker network. Rockwell Land also makes its projects attractive so that brokers will prioritize the Company's projects in marketing and offering to prospective buyers.

Rockwell Land's joint venture partner/s may have interests that differ from Rockwell Land's interests and may take actions that adversely affect Rockwell Land

Joint venture partner/s of Rockwell Land may have economic or business interests or goals inconsistent with or different from those of Rockwell Land's. Disputes between Rockwell Land and its joint venture partner/s may arise from joint venture partner/s' actions contrary to Rockwell Land's policies, objectives, instructions or requests. It is likewise possible that the joint venture partner may not be able to meet its obligations due to Rockwell Land. The above-mentioned possibilities may have a material adverse effect on Rockwell Land's results of operations and financial conditions.

Rockwell Land carefully chooses its joint venture partners and ensures proper due diligence and contract management to mitigate such risks.

Rockwell Land shall, at any given time, consider business combination alternatives

Although Rockwell Land's loan covenants contain certain restrictions on business combinations, Rockwell Land can opt to engage in certain types of business combinations. Business combinations involve financial and operational risks and could result in significant changes to Rockwell Land's operations, management and financial condition.

Investors nonetheless are assured that Rockwell Land takes into consideration its existing debt obligations and concomitant debt covenants in making any major business investments or acquisitions. Any financial commitments under such business combinations are evaluated in terms of the inflow of revenues of such projects and their ability to service their own financial requirements once fully operational.

Change in accounting principle for real estate sales (Philippine Interpretation IFRIC 15, Agreements for the Construction of Real Estate) will change the Company's revenue recognition for sale of condominium units

This new interpretation requires that revenue on construction of real estate be recognized only upon completion except when such contract qualifies as construction contract to be accounted for under PAS 11, construction contracts, which is based on stage of completion. The SEC and the Financial Reporting Standards Council have deferred the effectivity of this interpretation until the final revenue standard is issued by the International Accounting Standards Board and an evaluation of the requirements of the final revenue standard against Philippine real estate industry practices is completed. Adoption of this interpretation could result to a change in the revenue recognition of the Company on sale of condominium units and accounting for certain pre-selling costs.

The Company continues to assess the impact of this change in principle to its financial results. In addition, the Company also intends to do more short-turnaround projects to be able to recognize revenues year-on-year even based on completed projects. These short-turnaround projects will allow the Company to have completed projects per year therefore creating a more stable revenue and income stream from development.

Rockwell Land is subject to certain debt covenants

Rockwell Land has certain loan agreements which contain covenants that limit its ability to, among other things:

- Incur additional long-term debt to the extent that such additional indebtedness results in a breach of the required debt-to-equity ratios;
- Materially change its nature of business;
- Merge, consolidate, or dispose of substantially all its assets;
- Encumber, mortgage or pledge some of its assets; and
- Pay out dividends in the event debt payments are in arrears and such debt payment will result in the breach of its required current and debt-to-equity ratios.

Complying with these covenants may cause Rockwell Land to take actions that it otherwise would not take or not take actions that it otherwise would take. Rockwell Land's inability and/or failure to comply with these covenants would cause a default, which, if not waived, could result in the debt becoming immediately due and payable. In the likelihood of this event, Rockwell Land may not be able to repay or refinance such debt on terms that are acceptable to Rockwell Land or at all.

Rockwell Land continues its strategy of compliance with its debt obligations by adopting the necessary internal controls in financial management and adopting good corporate governance policies.

Rockwell Land operates in a regulated environment

Rockwell Land's development of condominium projects is subject to a wide range of government regulations, which, while varying from one locality to another, typically include zoning considerations as well as the requirement to procure a variety of environmental and construction-related permits. In addition, projects located on agricultural land must get clearance from DAR so that the land can be re-classified as non-agricultural land and, in certain cases, tenants occupying agricultural land may have to be relocated at the expense of Rockwell Land.

PD 957 and Batas Pambansa Blg. 220 are the principal statutes covering the development and sale of condominium projects for residential or commercial purposes. HLURB is the administrative agency of the government which enforces laws and regulations on:

- Suitability of the site;
- Road access;

- Necessary facilities;
- Open spaces;
- Water supply;
- Sewage disposal system;
- Electricity supply;
- Length and unit sizes; and
- Construction

Completion of the acquisition of the project site and the developer's financial, technical and administrative capabilities are pre-requisites to the approval of the development plans. Prior approval of the relevant Government unit shall also be required for the alterations of the approved plans that affect significant areas of the projects. Projects permits and any license to sell may be suspended, cancelled or revoked by the HLURB based on its own findings or upon complaint from an interested party. Rockwell Land cannot ensure that it will be able to obtain governmental approvals for its projects or that when given, such approvals will not be revoked.

Rockwell Land is subject to numerous environmental laws and regulations relating to the protection of the environment, human health and human safety. These include laws and regulations governing air emissions, water and waste water discharges, odor emissions and the management and disposal of, and exposure to, hazardous materials.

Developers of environmentally-sensitive projects or other cases at the discretion of the DENR regional office may be required to submit a detailed Environmental Impact Assessment in order to obtain an ECC to certify that the projects will not have an unacceptable environmental impact. Rockwell Land cannot assure its investors that current or future environmental laws and regulations applicable to Rockwell Land will not increase the costs of conducting its business above currently projected levels or require future capital expenditures. Rockwell Land may be required to pay a fine and incur costs for any violation of an ECC or damage or injury to buyers or any third party due to environmental hazards on land where the projects are located.

While Rockwell Land commits to exert efforts to comply with existing rules, regulations and laws governing their operations, it cannot foresee what environmental or health and safety legislation or regulations will be amended or enacted in the future; how existing or future laws or regulations will be enforced, administered or interpreted; or the amount of future expenditures that may be required to comply with these environmental or health and safety laws or regulations or to respond to environmental claims.

Rockwell Land employs several significant employees

Rockwell Land's Board of Directors and management executives are, and continue to be, vital to its successful operations. In the event of their departure, the loss of their intelligence, ability, experience and connections could prove difficult to replace and can cause a decline in the Company's overall performance. If the Company loses the services of any such significant employee and is unable to subsequently fill the resulting vacancy with equally qualified candidates, its business, operations and financial performance may be adversely affected. Please refer to the section entitled "Employees" located on page 80 of this Prospectus.

RISK FACTORS RELATING TO THE PHILIPPINES

The Philippine economy and business environment may be disrupted by political or social instability

The Philippines has from time to time experienced severe political and social instability, including acts of political violence. In 2001, allegations of corruption against former President Joseph Estrada resulted in protracted televised impeachment proceedings against him. These proceedings were followed by widespread street demonstrations and a public withdrawal of support for Estrada by the military that eventually forced Estrada to resign. On July 27, 2003, over 270 military officers and soldiers conducted an unsuccessful coup

d'état against Estrada's successor, President Gloria Macapagal-Arroyo, due to allegations of corruption. After the May 2004 elections, President Arroyo was re-elected and persistent accusations of corruption and electoral fraud were made against Arroyo during her second term. On February 24, 2006, another attempted coup d'état led President Arroyo to issue Proclamation 1017, which was criticized as a virtual declaration of martial law and portions of it were later declared unconstitutional by the Supreme Court of the Philippines. On November 29, 2007, Senator Antonio Trillanes IV, a leader of the 2003 coup d'état who was elected to the Senate while in jail, led an armed occupation by military officers and soldiers of a luxury hotel in the Makati financial district and publicly called for President Arroyo's ouster. Senator Trillanes and his troops later surrendered. On November 23, 2009, in the southern island of Mindanao's Maguindanao province, approximately 100 armed men allegedly affiliated with the Ampatuan political family murdered 58 persons, including members of the Mangudadatu family (the Ampatuans' political rivals in the province), lawyers, journalists and aides accompanying them, and motorists whose vehicles were behind the Mangudadatus' vehicles. The Maguindanao Massacre is considered as the worst election-related violence in Philippine history and the single worst killing of media workers in the world. As such, President Arroyo declared martial law over Maguindanao and deployed hundreds of police and military troops in the area in order to capture the perpetrators of the killings.

On December 12, 2011, the Philippine House of Representatives initiated impeachment proceedings against Renato Corona, Chief Justice of the Supreme Court of the Philippines. The impeachment complaint accused Chief Justice Corona of improperly issuing decisions that favored former President Arroyo, as well as failure to disclose certain properties, in violation of rules applicable to certain Government officials. The trial of Chief Justice Corona began in January 2012. On May 29, 2012, the impeachment court found Corona guilty of failing to disclose to the public his statement of assets, liabilities and net worth and removed Corona from his position as Chief Justice of the Supreme Court of the Philippines. There is no guarantee that future events will not cause political instability in the Philippines. Such instability may disrupt the country and its economy, discourage travel to Metro Manila and could materially and adversely affect the Company's business, financial condition and results of operations.

The credit ratings of the Philippines may adversely affect the Company's business

The sovereign credit ratings of the Government directly and adversely affect companies resident in the Philippines as international credit rating agencies issue credit ratings by reference to that of the sovereign. Moody's Investors Service, Inc. ("Moody's") has placed the Ba1 foreign and local currency long-term bond ratings of the Philippines on review for an upgrade. In May 2013, Standard & Poor's Ratings Group ("Standard & Poor's") raised the Philippines' credit rating from BB+ to BBB-, the minimum investment grade, due to the country's rosy macroeconomic fundamentals amidst global economic problems. Standard & Poor's also assigned a stable outlook on the Philippines' new rating.

No assurance can be given that Moody's, Standard & Poor's or any other international credit rating agency will not, in the future, downgrade the credit ratings of the Government and, consequently, Philippine companies. Any such downgrade could have an adverse impact on the liquidity in the Philippine financial markets, the ability of the Government and Philippine companies, including the Company, to raise additional financing and the interest rates and other commercial terms at which such additional financing will be made available.

Economic instability could have a negative effect on the financial results of the Company

The growth and profitability of Rockwell Land, as any business for that matter, is greatly influenced by the economic situation of the Philippines. Any economic instability in the future may have a negative effect on the financial results of Rockwell Land and the level of dividends paid and distributions made by Rockwell Land.

Over the years, the Philippines has experienced periods of slow or negative growth, high inflation, unforeseen devaluation of the Philippine currency, imposition of exchange controls, debt restructuring and significant rise in oil prices. The Asian financial crisis in 1997 resulted in higher interest rates, slower economic growth, and a significant reduction in the country's credit ratings which ultimately resulted in the depreciation of the Peso.

In order to combat the negative impact of the financial crisis, the government introduced reform measures in the fiscal and banking sectors resulting in improved investor confidence and increased economic activities.

While Rockwell Land shall continue to adopt conservative policies to protect its operations and finances, any deterioration in the economic conditions of the country could affect Rockwell Land's financial condition and operations.

Natural disasters adversely affecting the business of the Company

The Philippines has experienced a significant number of major natural catastrophes over the years, including typhoons, volcanic eruptions and earthquakes.

In 2011 alone, the country was affected by two major typhoons in September and December. Typhoon Pedring in September 2011 submerged certain parts of Manila in floodwaters, leaving major areas without electricity for days. Two months after, tropical typhoon Sendong caused flash floods in the southern islands of Mindanao killing 1,453 people and affecting thousands of others.

Southwest monsoons enhanced by typhoons caused torrential rains in the Luzon area last year. In December 2012, typhoon Pablo caused massive death and destruction in Southern Mindanao, killing 1,067 people and damaged crops and public infrastructure at an estimated ₱7.16 billion.

Just last August, several areas in Luzon were placed under a state of calamity due to the torrential rains brought by a southwest monsoon and enhanced by tropical storm Maring. More than one million people were affected by the weather disturbance, with 9 people killed.

These natural catastrophes will continue to affect the Philippines and the Company may incur losses for such catastrophic events which could materially and adversely affect its business, financial condition and results of operations.

Rockwell Land maintains comprehensive insurance against natural catastrophes to cover its various developments. Please see the sections entitled "Risk Relating to the Company and its Business" with respect to insurance risk, "Insurance Contracts" and "Material Agreements" located in Pages 22, 72 and 81 of this Prospectus.

RISKS RELATING TO THE BONDS

The Company may be unable to redeem the Bonds

At maturity, the Company will be required to redeem all of the Bonds. At that point in time, the Company may not have sufficient cash on hand and may not be able to arrange financing to redeem the Bonds in time, or on acceptable terms, or at all. The ability to redeem the Bonds in such event may also be limited by the terms of other debt instruments. Failure to repay, repurchase or redeem tendered Bonds by the Company would constitute an event of default under the Bonds, which may also constitute a default under the terms of other indebtedness of the Company.

Rockwell Land has a strong and stable business in the Philippines. It has strong recurring cash flows, maintains a healthy debt-equity ratio, and maintains a stable level of liquidity in its statement of financial position. The Company is confident that it can service the interest and redeem the Bonds at maturity and/or seek refinancing facilities.

Liquidity Risk

The Philippine debt securities markets, particularly the market for corporate debt securities, are substantially smaller, less liquid and more concentrated than other securities markets. The Company cannot guarantee whether an active trading market for the Bonds will develop or if the liquidity of Bonds will be sustained throughout its life. Even if the Bonds are listed on the PDEX, trading in securities such as the Bonds may be subject to extreme volatility at times, in response to fluctuating interest rates, developments in local and international capital markets and the overall market for debt securities among other factors. There is no assurance that the Bonds may be easily disposed of at prices and volumes at instances best deemed appropriate by their holders.

Pricing Risk

The market price of the Bonds will be subject to market and interest rate fluctuations, which may result in the investment being appreciated or reduced in value. If market interest rates decrease relative to the Interest Rate of the Bonds, the price of the Bonds, when sold in the secondary market, may increase. Conversely, if market interest rates increase relative to the Interest Rate of the Bonds, the price of the Bonds, when sold in the secondary market, may decrease. Thus, a Bondholder could face possible losses if he decides to sell in the secondary market.

Retention of Ratings Risk

There is no assurance that the rating of the bonds will be retained throughout the life of the Bonds. The rating is not a recommendation to buy, sell, or hold securities and may be subject to revision, suspension, or withdrawal at any time by the assigning rating organization.

Bonds have no Preference under Article 2244(14) of the Civil Code

No other loan or other debt facility currently or to be entered into by the Issuer shall have preference of priority over the Bonds as accorded to public instruments under Article 2244(14) of the Civil Code, and all banks and lenders under any such loans or facilities that are notarized have waived the right to the benefit of any such preference or priority. However, should any bank or Bondholder hereinafter have a preference or priority over the Bonds as a result of notarization, then the Issuer shall at the Issuer's option, either procure a waiver of the preference created by such notarization or equally and ratably extend such preference to the Bonds.

PHILIPPINE TAXATION

The following is a discussion of the material Philippine tax consequences of the acquisition, ownership and disposition of the Bonds. This general description does not purport to be a comprehensive description of the Philippine tax aspects of the Bonds and no information is provided regarding the tax aspects of acquiring, owning, holding or disposing of the Bonds under applicable tax laws of other applicable jurisdictions and the specific Philippine tax consequence in light of particular situations of acquiring, owning, holding and disposing of the Bonds in such other jurisdictions. This discussion is based upon laws, regulations, rulings, and income tax conventions (treaties) in effect at the date of this Prospectus.

The tax treatment of a Bondholder may vary depending upon such Bondholder's particular situation, and certain Bondholders may be subject to special rules not discussed below. This summary does not purport to address all tax aspects that may be important to a Bondholder.

PROSPECTIVE PURCHASERS OF THE BONDS ARE URGED TO CONSULT THEIR OWN TAX ADVISORS AS TO THE PARTICULAR TAX CONSEQUENCES OF THE OWNERSHIP AND DISPOSITION OF A BOND, INCLUDING THE APPLICABILITY AND EFFECT OF ANY LOCAL OR FOREIGN TAX LAWS.

As used in this section, the term "resident alien" refers to an individual whose residence is within the Philippines and who is not a citizen thereof; a "non-resident alien" is an individual whose residence is not within the Philippines and who is not a citizen of the Philippines. A non-resident alien who is actually within the Philippines for an aggregate period of more than 180 days during any calendar year is considered a "non-resident alien doing business in the Philippines," otherwise, such non-resident alien who is actually within the Philippines for an aggregate period of 180 days or less during any calendar year is considered a "non-resident alien not doing business in the Philippines." A "resident foreign corporation" is a non-Philippine corporation engaged in trade or business within the Philippines; and a "non-resident foreign corporation" is a non-Philippine corporation not engaged in trade or business within the Philippines.

TAXATION OF INTEREST

The Tax Code provides that interest-bearing obligations of Philippine residents are Philippine-sourced income subject to Philippine income tax. Interest income derived by Philippine resident individuals from the Bonds is thus subject to income tax, which is withheld at source, at the rate of 20%. Generally, interest on the Bonds received by non-resident foreign individuals engaged in trade or business in the Philippines is subject to a 20% withholding tax while that received by non-resident foreign individuals not engaged in trade or business is taxed at the rate of 25%. Interest income received by domestic corporations and resident foreign corporations is taxed at the rate of 20%. Interest income received by non-resident foreign corporations is subject to a 30% final withholding tax. The tax withheld constitutes a final settlement of Philippine income tax liability with respect to such interest.

The foregoing rates are subject to further reduction by any applicable tax treaties in force between the Philippines and the country of residence of the non-resident owner. Most tax treaties to which the Philippines is a party generally provide for a reduced tax rate of 15% in cases where the interest arises in the Philippines and is paid to a resident of the other contracting state. However, most tax treaties also provide that reduced withholding tax rates shall not apply if the recipient of the interest, who is a resident of the other contracting state, carries on business in the Philippines through a permanent establishment and the holding of the relevant interest-bearing instrument is effectively connected with such permanent establishment.

TAX-EXEMPT STATUS

Bondholders who are exempt from or are not subject to final withholding tax on interest income may claim such exemption by submitting the necessary documents. Said Bondholder shall submit the following requirements to the Registrar, to the Issue Manager or Joint Lead Underwriters (together with their completed Application to Purchase) who shall then forward the same to the Registrar: (i) certified true copy of the tax exemption certificate issued by the BIR; (ii) a duly notarized undertaking, in prescribed form, declaring and warranting its tax-exempt status, undertaking to immediately notify Rockwell Land of any suspension or

revocation of the tax exemption certificate and agreeing to indemnify and hold Rockwell Land free and harmless against any claims, actions, suits, and liabilities resulting from the non-withholding of the required tax; and (iii) such other documentary requirements as may be required under the applicable regulations of the relevant taxing or other authorities; provided further that, all sums payable by Rockwell Land to tax-exempt entities shall be paid in full without deductions for taxes, duties, assessments, or government charges, subject to the submission by the Bondholder claiming the benefit of any exemption or reasonable evidence of such exemption to the Registrar.

Bondholders may transfer their Bonds at anytime, regardless of tax status of the transferor vis-à-vis the transferee. Should a transfer between Bondholders of different tax status occur on a day which is not an Interest Payment Date, tax exempt entities trading with non-tax exempt entities shall be treated as non-tax exempt entities for the interest period within which such transfer occurred. Transfers taking place in the Registry of Bondholders after the Bonds are listed on PDEX shall be allowed between non tax exempt and tax-exempt entities without restriction and observing the tax exemption of tax exempt entities, if and/or when so allowed under and in accordance with the relevant rules, conventions and guidelines of PDEX and PDTTC.

A Bondholder claiming tax-exempt status is required to submit a written notification of the sale or purchase to the Trustee and the Registrar, including the tax status of the transferor or transferee, as appropriate, together with the supporting documents specified under the Section entitled *"Payment of Additional Amounts; Taxation,"* within three days of such transfer.

VALUE-ADDED TAX

Gross receipts arising from the sale of the Bonds in the Philippines by Philippine-registered dealers in securities and lending investors shall be subject to a 12% value-added tax. The term "gross receipt" means gross selling price less cost of the securities sold.

GROSS RECEIPTS TAX

Bank and non-bank financial intermediaries are subject to gross receipts tax on gross receipts derived from sources within the Philippines in accordance with the following schedule:

On interest, commissions and discounts from lending activities as well as income from financial leasing, on the basis of remaining maturities of instruments from which such receipts are derived:

Maturity period is five years or less	5%
Maturity period is more than five years	1%

In case the maturity period referred above is shortened through pre-termination, then the maturity period shall be reckoned to end as of the date of pre-termination for purposes of classifying the transaction and the correct rate shall be applied accordingly.

Net trading gains realized within the taxable year on the sale or disposition of the Bonds shall be taxed at 7%.

DOCUMENTARY STAMP TAX

A documentary stamp tax is imposed upon the issuance of debentures and certificates of indebtedness issued by Philippine companies, such as the Bonds, at the rate of Php1.00 for each Php200, or fractional part thereof, of the offer price of such debt instruments; provided that, for debt instruments with terms of less than one year, the documentary stamp tax to be collected shall be of a proportional amount in accordance with the ratio of its term in number of days to 365 days.

The documentary stamp tax is collectible wherever the document is made, signed, issued, accepted, or transferred, when the obligation or right arises from Philippine sources, or the property is situated in the Philippines. Any applicable documentary stamp taxes on the original issue shall be paid by Rockwell Land for its own account.

No documentary stamp tax is imposed on the subsequent sale or disposition of the Bonds.

TAXATION ON SALE OR OTHER DISPOSITION OF THE BONDS

Income Tax

The Bondholder will recognize gain or loss upon the sale or other disposition (including a redemption at maturity) of the Bonds in an amount equal to the difference between the amount realized from such disposition and such Bondholder's basis in the Bonds. Such gain or loss is likely to be deemed a capital gain or loss assuming that the Bondholder has held the Bonds as capital assets.

Under the Tax Code, any gain realized from the sale, exchange or retirement of securities, debentures and other certificates of indebtedness with an original maturity date of more than five years (as measured from the date of issuance of such securities, debentures or other certificates of indebtedness) shall not be subject to income tax.

In case of an individual taxpayer, only 50% of the capital gain or loss is recognized upon the sale or exchange of a capital asset if it has been held for more than 12 months.

Any gains realized by non-residents on the sale of the Bonds may be exempt from Philippine income tax under an applicable tax treaty or if they are sold outside the Philippines.

Estate and Donor's Tax

The transfer by a deceased person, whether a Philippine resident or non-Philippine resident, to his heirs of the Bonds shall be subject to an estate tax which is levied on the net estate of the deceased at progressive rates ranging from 5% to 20%, if the net estate is over Php200,000. A Bondholder shall be subject to donor's tax on the transfer of the Bonds by gift at either (i) 30%, where the donee or beneficiary is a stranger, or (ii) at progressive rates ranging from 2% to 15% if the net gifts made during the calendar year exceed Php100,000 and where the donee or beneficiary is other than a stranger. For this purpose, a "stranger" is a person who is not a: (a) brother, sister (whether by whole or half-blood), spouse, ancestor and lineal descendant; or (b) relative by consanguinity in the collateral line within the fourth degree of relationship.

The estate tax and the donor's tax, in respect of the Bonds, shall not be collected (a) if the deceased, at the time of death, or the donor, at the time of the donation, was a citizen and resident of a foreign country which, at the time of his death or donation, did not impose a transfer tax of any character in respect of intangible personal property of citizens of the Philippines not residing in that foreign country; or (b) if the laws of the foreign country of which the deceased or donor was a citizen and resident, at the time of his death or donation, allows a similar exemption from transfer or death taxes of every character or description in respect of intangible personal property owned by citizens of the Philippines not residing in the foreign country.

These capital expenditure (CAPEX) requirements already excludes those projects the funding of which were allocated from the existing ₱10.0 billion corporate notes drawn this year.

To complete the abovementioned projects, the Company will require P19.2 billion from 2015 to 2019. Except for Proscenium, all of the residential projects are scheduled for turnover between 2014 and 2016. Any shortfall in project inflows and outflows may be supplemented by drawdowns from the Company's existing working capital lines.

In the event of any substantial deviation or adjustment in the planned use of proceeds, Rockwell Land shall inform the SEC and the Bondholders within 30 days prior to its implementation.

(c) Bond Rating

CRISP has assigned a AA+ rating to Rockwell Land's proposed issuance of the Bonds, having considered Rockwell Land's business plans, growth prospects and cashflow.

The rating assigned reflects the following key considerations: Rockwell Land as a very strong niche market player, focusing in the high end and upper middle segments of the market, resulting in commanding the highest capital value in the country; strong financial performance, with ability to command premium rates, resulting in its ability to generate strong income; and prudent fiscal management policy. The rating also reflects the following factors which were considered when the AA+ rating was assigned to the proposed issuance: Rockwell Land's diversified portfolio; established brand name; and favorable economic and industry conditions. CRISP's ratings are based on available information and projections at the time that the rating review is on-going. CRISP shall continuously monitor developments relating to Rockwell Land and may change the rating at any time, should circumstances warrant a change.

The rating is subject to regular annual reviews, or more frequently as market developments may dictate, for as long as the Bonds are outstanding. After Issue Date, the Trustee shall likewise monitor compliance by the Issuer with certain covenants in relation to the Bonds through regular annual reviews.

Such statement of registry holdings shall serve as the confirmation of ownership of the relevant Bondholder as of the date thereof. Any and/or all requests of Bondholders for certifications, reports or other documents from the Registrar, except as provided herein, shall be for the account of the requesting Bondholder. No transfer of Bonds may be made during the period commencing on a Record Date as defined in the section on "Interest Payment Date."

(b) *Transfers; Tax Status*

Bondholders may transfer their Bonds at any time, regardless of tax status of the transferor vis-à-vis the transferee. Should a transfer between Bondholders of different tax status occur on a day which is not an Interest Payment Date, tax-exempt entities trading with non-tax-exempt entities shall be treated as non-tax-exempt entities for the interest period within which such transfer occurred. Transfers taking place in the Registry of Bondholders after the Bonds are listed on PDEX shall be allowed between non-tax-exempt and tax-exempt entities without restriction and observing the tax exemption of tax-exempt entities, if and/or when so allowed under and in accordance with the relevant rules, conventions and guidelines of PDEX and PDTC. A Bondholder claiming tax-exempt status is required to submit a written notification of the sale or purchase to the Trustee and the Registrar, including the tax status of the transferor or transferee, as appropriate, together with the supporting documents specified below under "*Payment of Additional Amounts; Taxation*", within three days of such transfer.

The Bonds bears interest on its principal amount from and including Issue Date at the rate of [●]% p.a., payable quarterly in arrears, commencing on [●] as the first Interest Payment Date, and on [●], [●],[●], and [●] of each year following the first Interest Payment Date, or the subsequent Business Day without adjustment to the amount of interest to be paid, if such Interest Payment Date is not a Business Day.

For purposes of clarity, the last Interest Payment Date on the Bonds shall fall on the Maturity Date or [●] or seven (7) years and one (1) quarter from the Issue Date.

The cut-off date in determining the existing Bondholders entitled to receive the interest or principal amount due shall be the second (2nd) Business Day immediately preceding the relevant Interest Payment Date (the "Record Date"), which shall be the reckoning day in determining the Bondholders entitled to receive interest, principal or any other amount due under the Bonds. No transfers of the Bonds may be made during this period intervening between and commencing on the Record Date and the relevant Interest Payment Date.

(b) Interest Accrual

Each Bond shall cease to bear interest from and including the Maturity Date, as defined in the discussion on "Final Redemption", below, unless, upon due presentation, payment of the principal in respect of the Bond then outstanding is not made, is improperly withheld or refused, in which case the Penalty Interest (see "Penalty Interest" below) shall apply.

(c) Determination of Interest Amount

The interest shall be calculated on the basis of a 30/360-day basis, consisting of 12 months of 30 days each and, in the case of an incomplete month, the number of days elapsed on the basis of a month of 30 days.

5. Redemption and Purchase

(a) Optional Redemption

Prior to the Maturity Date, the Issuer may redeem in whole, but not in part, the outstanding Bonds on the following dates: (i) the twenty first (21st) Interest Payment Date or five (5) years and one (1) quarter from the Issue Date; and (ii) the twenty fifth (25th) Interest Payment Date or six (6) years and one (1) quarter from the Issue Date (each an "Optional Redemption Date"). The Issuer shall give not less than thirty (30) nor more than sixty (60) days prior written notice of its intention to redeem the Bonds, which notice shall be irrevocable and binding upon the Issuer to effect such early redemption of the Bonds on the Optional Redemption Date stated in such notice.

The amount payable to the Bondholders in respect of an Optional Redemption exercise shall be calculated, based on the principal amount of the Bonds being redeemed, as the sum of (i) accrued interest computed from the last Interest Payment Date up to the relevant Optional Redemption Date; and (ii) the product of the principal amount of the Bonds being redeemed and the Optional Redemption Price in accordance with the following schedule:

Optional Redemption Date	Optional Redemption Price
Five (5) years and One (1) quarter from the Issue Date	102%
Six (6) years and One (1) quarter from the Issue Date	101%

(b) Final Redemption

Unless previously purchased and cancelled, the Bonds shall be redeemed at par, or 100% of face value on

[●Maturity Date]. However, if the Maturity Date is not a Business Day, payment of all amounts due on such date will be made by the Issuer through the Paying Agent, without adjustment in computation as to the amount of interest payable, on the succeeding Business Day.

(c) *Redemption for Tax Reasons*

If payments under the Bonds become subject to additional or increased taxes other than the taxes and rates of such taxes prevailing on the Issue Date as a result of certain changes in law, rule or regulation, or in the interpretation thereof, and such additional or increased rate of such tax cannot be avoided by use of reasonable measures available to the Issuer, the Issuer may redeem the Bonds in whole, but not in part, on any Interest Payment Date (having given not more than 60 nor less than 30 days' notice to the Trustee and the Registrar) at par or 100% of face value plus accrued interest computed up to the date when the Bonds shall be redeemed earlier than its Maturity Date.

(d) *Change in Law or Circumstance*

In the event that the Issuer shall invoke the foregoing as a Change in Law, the Issuer shall provide the Trustee an opinion of legal counsel confirming the foregoing, such legal counsel being reasonably acceptable to the Trustee. Thereupon, the Trustee, upon notice to the Issuer, shall declare the principal amount of the Bonds, including all accrued interest and other chargers thereon, if any, to be immediately due and payable, and upon such declaration, the same shall be immediately due and payable without and pre-payment penalty, notwithstanding anything in the Trust Indenture and other related documents to the contrary.

(e) *Purchase and Cancellation*

The Paying Agent may not resign its duties or be removed without a successor having been appointed.

7. Payment of Additional Amounts - Taxation

DESCRIPTION OF BUSINESS

OVERVIEW AND HISTORY

Rockwell Land is a premier property developer for residential and commercial projects that cater to the high-end and upper-mid markets in Metro Manila. It is primarily engaged in the residential development of high-rise condominiums as well as in retail and office leasing.

The Company was incorporated on August 11, 1975 as First Philippine Realty and Development Corporation. In February 23, 1995, the Company amended its articles of incorporation, changing its name to Rockwell Land Corporation. On September 27, 1996, the SEC approved the increase in capital stock of the Company from ₱1.0 million to ₱6.0 billion with three major shareholders subscribing to the increase, namely: Meralco, FPHC and Lopez Holdings Corporation. During the increase, the Company also amended its articles of incorporation to include the increase in capital stock and the increase in the number of directors from 5 to 11. On May 4, 2000, the SEC approved the articles of merger of the Company with Hubbard Realty Holdings, Inc., Farragut Realty Holdings, Inc., Mc Pherson Square, Inc., and Foggy Bottom, Inc., with the Company as the surviving entity. In July 2008, the SEC approved the Company's increase in authorized capital from ₱6.0 billion divided into 6,000,000,000 Common Shares with ₱1 par value each to ₱9.0 billion divided into 8,890,000,000 Common Shares with the same par value and 11,000,000,000 Preferred Shares with a ₱0.01 par value each with existing shareholders subscribing to the increase in capital. In August 2009, Lopez Holdings Corporation sold its share in the Company to FPHC therefore leaving the Company with only two (2) major shareholders, namely Meralco and FPHC. On February 28, 2012, the SEC approved the amendment to the First Article of the Articles of Incorporation of the Company changing its name from "Rockwell Land Corporation" to: "ROCKWELL LAND CORPORATION Doing business under the name and style of Powerplant Mall; Powerplant Cinemas; and Edades Serviced Apartments".

The Company's first project was to convert an old thermal power plant site in Makati City into an upscale mixed-use community known today as the Rockwell Center. This 15.5 hectare site is located between the Makati and Ortigas business districts and distinguishes itself with more landscape and open spaces. Rockwell Center now consists of several high-rise residential buildings (seven towers completed to date), a shopping mall (Power Plant Mall), an exclusive leisure club (Rockwell Club), a graduate school and two office buildings owned by Nestle Philippines and the Phinma Group.

In November 1995, the Company launched the Rizal Towers and Hidalgo Place which were well-received by the market. It launched two more residential towers in the late 90s and opened its first retail project, the Power Plant Mall, in the late 2000.

In time for the hand over of its first residential project, Rockwell Land formed its wholly-owned subsidiary RIPSU in February 19, 1999. RIPSU is Rockwell Land's property management arm which now manages all the completed residential projects in the Rockwell Center located in Makati City and the recently completed towers from The Grove in Pasig City.

The impact of the 1997 Asian Financial Crisis was only felt by the Company when it registered substantial net losses for 2001 and 2002. Despite this, the Company launched The Manansala in late 2001 which was instrumental in the Company's return to profitable operations. The Company delivered The Manansala six months ahead of schedule. While marketing The Manansala, the Company began to cater its projects to the Filipino-American market in the U.S. This sales and marketing strategy opened doors to additional projects in the Rockwell Center—Joya Lofts and Towers and One Rockwell.

The Company expanded in 2008 with the acquisition of a 5.4 hectare property in Pasig and its entry into the office leasing business. The Pasig property development was launched in late 2008 as The Grove, the Company's first residential development project outside of Rockwell Center and its initial entry into the upper mid-market residential sector. The entire 6-tower development was launched yearly since 2008, with two towers per year of launch.

On the other hand, its entry into the office leasing business was through an unincorporated joint venture with Meralco for the development of an office complex in the Ortigas area, which started its operations in 2009.

On February 27, 2012, the Board of Directors of Meralco approved the declaration of its 51% ownership in the Company as property dividend in favor of common stockholders of record as of March 23, 2012, except for foreign common shareholders who were paid the cash equivalent of the property dividend. Consequently the Company became a public company having more than 200 shareholders. The property dividend was paid on May 11, 2012 wherein FPHC received property dividends from Meralco in the form of 125,079,016 common shares of the Company. On the same date, the Company acquired 126,620,146 common shares from Meralco, representing the foreign shareholders' entitlement from the property dividend distribution, at ₱1.4637 per share. The Company was listed in the PSE by way of introduction on May 11, 2012.

On June 28, 2012 and July 27, 2012, FPHC purchased additional shares of the Company from Beacon Electric Asset Holdings, Inc. and San Miguel Corporation, respectively. As of December 31, 2012, FPHC owns 86.8% of the Company

In its bid to expand the business and to bring the Rockwell lifestyle into the broader market segment, the Company incorporated its wholly-owned subsidiary Primaries Development Corporation ("Primaries", formerly Rockwell Land Homes Inc.) last September 2012.

The Company also formed three (3) other wholly owned subsidiaries: Stonewell Development Corporation Inc., was incorporated last September 2012 to develop socialized housing for the Parent Company; Primaries Properties Sales Specialist Inc., was incorporated last November 2012 primarily to act the sales and marketing arm of Primaries; and Rockwell Hotels & Leisure Management Corporation (Rockwell Hotels) was incorporated last June 20, 2013 for the management of hotel and resort operations.

The Company and its subsidiaries have not been involved in any bankruptcy, receivership or similar proceedings.

The distinguishing feature of the One Rockwell units is its Z-loft, which provide residents with units crossing across the corridor for views from both sides of the building. This two (2)-tower project (the East and West Towers) commenced construction in Feb 2007 and was completed in November 2011. The development project is primarily residential and is due for launch in late 2013.

Edades Serviced Apartments

Because of the strong leasing market of the residential condominium towers in Rockwell Center for both the local and expatriate market due to its proximity to Makati CBD and Bonifacio Global City, the Company will open 6 floors of 114 serviced apartments in the Edades Tower and Garden Villas, which is due for final completion in the 1st quarter of 2014.

Iconique Office Tower of Proscenium

COMPETITIVE STRENGTHS

The Company believes that it can effectively compete in the industry because of the following strengths:

Reputation for innovation and world-class property developments

Rockwell Land first ventured into the Philippine housing market to become a pioneering developer of real estate properties and communities and to raise the standards for property development in Metro Manila by providing world-class pioneering designs and state of the art features of buildings and units. With this in mind, its projects are developed on the premise of providing additional choices and features to address what the clients need and want. Some of the Company's innovations are as follows:

- "City within a city"- First self- contained master-planned community with generous space allotment for landscaping and open spaces;
- Lofts and Z-lofts - Architectural features in residential units that allows buyers to have more cityscape views and maximized interiors;
- Garden Units - Merging condo-living with a backyard feature, the garden unit give owners their own direct access to gardens and ground floor;
- Garden Villas - townhouse-like structures within a condominium development;
- Model units inside a mall; and
- Reserved seating in the cinemas.

The Company has historically used these new concepts and products to differentiate itself from the other industry players to gain market acceptance and later on market share.

Solid project delivery track record

Over the years and with several completed projects, the Company has always delivered its projects to its customers on time (or even ahead of schedule), within budget and with the committed quality. This is the guiding principle for all the Company's projects whether in the residential, retail or office segment of its business.

In addition, the Company believes that it has to deliver not just its projects' physical structures but also the "Rockwell Land Experience" that comes with it. As seen in Rockwell Center and its other projects, the Company aims to establish a new standard for luxury and community living. The Company believes that it has successfully established the Rockwell Land name as a brand associated with exclusivity, high quality living, security and total community experience.

The Company ensures high quality project delivery and post-turnover operation. Its focus on responsive property management sets it apart from all the other major developers which is reflected in the higher capital values and rental yields for its residential projects and high demand for its retail and office spaces.

Unique and strategic urban assets

The location of the Company's land bank close to the CBD of Makati, Fort Bonifacio and Ortigas provides exciting opportunities for residential and mixed use developments. The Company's project developments in these sites are expected to provide unique property development concepts with the added practicality of being in strategic locations within Metro Manila.

Substantial recurring income

The Company generates substantial recurring income from leases in the Power Plant Mall and the Rockwell Business Center. These cash flows allow the Company to generate consistent profitability throughout each stage of the property cycle. The stable base of recurring income gives the Company the flexibility to generate strong property development revenues in the long term.

Strong financial position

The Company is in a strong balance sheet position with a net debt to equity ratio of 0.49x. It generates substantial internally generated cash from its commercial leasing business and residential projects. This gives the Company a credit-worthy standing allowing it to access funds for expansion and growth. In fact, the Company is able to raise funds from major banking institutions at very prime credit spreads.

Experienced Management Team

The Company has an experienced professional management team who were instrumental in shaping the Company's growth and brand almost from inception. With years of operational and management experience in property development from the Philippines and abroad, this management team has proven itself in the delivery of completed projects. In addition, majority of the current executives have helped the Company survive through the Asian Financial crisis and the local property crisis that hit the Philippines shortly after the Company first entered the market. These experiences as well as the market knowledge they acquired through the years will be key in driving the future path of the Company.

Potential for Expansion and Growth

Its line-up of projects for launch in the next years is projected to generate substantial revenues to ensure Rockwell Land's growth in the medium term. The Proscenium project will expand the current Rockwell Center and is aimed to further enhance the value of this mixed-use inner-city development. 205 Santolan, on the other hand, being its first townhouse development project is meant to capture a different market segment

that is still underdeveloped. Its entry into the vibrant Cebu market, its first project outside of Metro Manila, its venture into the broader market, through Primaries, and the launching of its first serviced apartment project in Edades are meant to bring the Rockwell brand and experience into a more diverse geographic and buyers profile that will expand its portfolio of products and services.

STRATEGIES

The following are the strategies that Rockwell Land employs as it pursues its real property business:

Pursue opportunities by offering new products or services to untapped or underserved markets

Rockwell Land aims to differentiate itself in the property development industry as seen from its history of offering new or enhanced products into the market. The Company intends to pursue new opportunities primarily by filling the voids in untapped or underserved markets, seeking to find high-growth niche markets. It plans to do this by studying the market, anticipating its needs as well as by creating solutions to existing problems or concerns of the market.

Recent examples of this are the new ventures of the Company into the serviced apartments market, the townhouse developments and the broader market through Primaries. About 114 serviced apartment units are incorporated in its Edades project while 205 Santolan is its first townhouse developments project. The Company believes that these are underserved markets which can use its expertise and experience in order to offer something new to the consumers.

Capitalize on the Rockwell brand and the Company's experience to expand its business

The Company believes that it has already established a strong brand in Rockwell, particularly in the high-end market. Whether in residential, retail or even office projects, the Rockwell name has been known not just for the quality of its physical structures but also the lifestyle and experience that comes with it.

The Company plans to capitalize on this as it expands its product range, customer base and geographical reach. While the Company expects to launch more mixed-use inner city developments similar to Rockwell Center within and outside Metro Manila, it also intends to enhance its product offerings with townhouses and mid-rise condominium. In addition, Rockwell Land also would like to bring its expertise and experience in the broader mid-market segment through Primaries.

Maintain a healthy balance of recurring and non-recurring income sources

The Company believes that it has to provide a stable value to its shareholders despite the cyclical nature of its industry. Though it plans to take advantage of the upswings in the market, it also intends to create a buffer when market conditions are not favorable. Rockwell Land aims to do this by balancing its higher value income from its residential projects with the more stable and recurring income from its commercial leasing business as well as in its serviced apartment components. In addition, it also plans to balance its signature mixed-use inner city developments which are long-term in nature with shorter-turnaround projects such as townhouse developments and mid-rise projects.

COMPETITION

Rockwell Land operates in a highly competitive industry. The industry consists of two (2) sets of players: (a) the major players who are present in all segments of the market (residential, retail, office and tourism) and generally have nationwide presence and (b) the niche players who only operate in certain segments of the market.

The Company is a niche player which is mainly into vertical residential projects in Metro Manila primarily targeting the high-end and the upper-mid markets. For its residential development business, the Company competes on the basis of location, product quality, amenities and price. On the other hand, competition for the commercial leasing business is based on location, quality and availability of space. Rockwell Land believes that it mainly competes with Ayala Land Inc. (“ALI”), Shang Properties Inc. (“Shang Properties”) and Century Properties Group Inc. (“CPG”) for its residential business and ALI and Shang Properties for its retail business. For its office segment, the Company competes with Robinsons Land Corp. (“RLC”) and the office building developers in Fort Bonifacio Global City. ALI and RLC are both major players present in the whole spectrum of the property market segments nationwide. On the other hand, Shang Properties and CPG are also niche players, similar to the Company, focused mainly on residential and retail (for Shang Properties) and residential (for CPG).

With its strong brand name and its track record of project innovations and successful delivery, the Company believes that it can effectively compete in its current niche and is in a solid position to enter new markets. The Company decided last year to enter into horizontal residential development with the launch of its first townhouse project, 205 Santolan. Although the Company has no track record in managing this type of projects as compared to its competitors, it believes that its experience in vertical residential projects will be useful. In addition, these projects will also be targeting the high-end and the upper-mid markets that the Company is very familiar with.

CUSTOMERS AND DISTRIBUTION METHODS

The Company caters to a wide range of customers, not any one of whom account for 20% or more of its revenues. Its residential projects are sold to both local individuals and corporations and foreign individuals with the local market accounting for about 75% of sales in the last three years. For its commercial leasing business, its customers are individuals and institutions.

Residential projects are sold to clients primarily through the Company’s in-house sales team which exclusively sells Rockwell Land projects, complemented by a network of licensed brokers. Its in-house sales team, now numbering 86, consists of regular employees and is headed by licensed brokers. For Primaries, sales agents are hired by the recently established Primaries Properties Sales Specialists Incorporated (PPSSI) to remain competitive in the market it aims to penetrate.

The Company also has an in-house leasing team which handles leasing of tenants for its retail and office business.

The Company maintains websites (www.e-rockwell.com and www.powerplantmall.com) and various model units which serve as touch points for its customers. The model units for Edades and the Grove found in the Power Plant Mall have now been converted for Proscenium, a project launched in November 2012. The Grove model units are still found on site. Since late 2010, it has again tapped the Filipinos living overseas or abroad through international roadshows.

SUPPLIERS

The Company's raw material requirements for its business are widely available from local and international sources. It generally enters into fixed-sum agreements with reputable general contractors for the construction and development works of its projects except in instances when it believes that it can benefit from the direct procurement of certain materials and packages. Awarding of construction contracts and packages go through the following selection process: pre-qualification (based on project track record, including previous works done for Rockwell Land, and financial capacity, among others), submission of sealed bids, evaluation of accepted bids (technical and commercial) and a final bidding. It maintains a wide base of suppliers and is not dependent on one or a limited number. Rockwell Land also continues to seek new suppliers as well as explore ways of effectively partnering with its contractors and subcontractors to ensure the quality, on time delivery and the cost-effectiveness of its projects.

Rockwell Land maintains an in-house project development team that it has built over the past three completed residential projects. This team of about 70 employees with specialization in various engineering and architectural disciplines is tasked to ensure that projects are delivered on time according to a specified quality and budget. It manages the different projects by strictly monitoring project milestones in coordination with the general contractors and ensuring that issues during construction are resolved timely.

Some of Rockwell Land's manpower requirements for its retail, office and property management operations are outsourced to accredited services providers. This includes housekeeping, janitorial, security and maintenance personnel, among others. The service providers also go through a selection and accreditation process and regular evaluation in order to maintain the required service level.

RESEARCH AND DEVELOPMENT

The Company incurred very minimal amounts for activities related to research and development in the last three years which also did not amount to a significant percentage versus revenues.

REGULATORY AND ENVIRONMENTAL MATTERS

Real Estate Development

PD 957, otherwise known as The Subdivision and Condominium Buyers' Protective Decree, as amended, is the principal statute which regulates the development and sale of real property as part of a condominium project or subdivision. PD 957 covers subdivision projects and all areas included therein for residential, commercial, industrial and recreational purposes as well as condominium projects for residential or commercial purposes. The HLURB is the administrative agency of the Government which, together with local government units, enforces this decree and has jurisdiction to regulate the real estate trade and business.

All subdivision and condominium plans for residential, commercial, industrial and other development projects are subject to approval by the relevant local government unit in which the project is situated. The development of subdivision and condominium projects can commence only after the relevant Government body has issued the development permit. The issuance of a development permit is dependent on compliance with required project standards and technical requirements which may differ depending on the nature of the project.

Further, all subdivision plans and condominium project plans are required to be filed with and approved by the HLURB. Approval of such plans is conditional on, among other things, the developer's financial, technical and administrative capabilities. Alterations of approved plans which affect significant areas of the project, such as infrastructure and public facilities, also require the prior approval of the relevant local government unit. Owners of, or dealers in, real estate projects are required to obtain licenses to sell before making sales or other dispositions of lots or real estate projects. Dealers, brokers and salesmen are also required to register with the HLURB. Violation of any of the provisions of PD 957 shall be punished by a fine of not more than ₱20,000.00 and/or imprisonment of not more than ten (10) years. Furthermore, project permits and licenses to sell may be suspended, cancelled or revoked by the HLURB, by itself or upon a verified complaint from an interested party, for reasons such as insolvency or violation of any of the provisions of PD 957. A license or permit to sell may only be suspended, cancelled or revoked after a notice to the developer has been served and all parties have been given an opportunity to be heard in compliance with the HLURB's rules of procedure and other applicable laws. Subdivision or condominium units may be sold or offered for sale only after a license to sell has been issued by the HLURB. The license to sell may be issued only against a performance bond posted to guarantee the completion of the construction of the subdivision or condominium project and compliance with applicable laws and regulations. All documents evidencing conveyances of subdivision and condominium units should be registered with the Register of Deeds. Title to the subdivision or condominium unit must be delivered to the purchaser upon full payment of the purchase price. Any mortgage existing thereon must be released within six months from the delivery of title.

Under the current Investment Priorities Plan issued by the Board of Investments, mass housing projects are eligible for government incentives subject to certain policies and guidelines.

RA 6552, otherwise known as the Realty Installment Buyer Act, was promulgated to protect buyers of real estate on installment basis by giving the buyers at least 60 days grace period within which to pay any unpaid

installments without any interest and by requiring the sellers of real estate to give the buyers a refund of at least 50% of the total payments made should the sale be cancelled and the buyers have paid at least two (2) years of installments. RA 6552 covers the business of Rockwell Land as it applies to all transactions or contracts involving the sale or financing of real estate through installment payments. The Company's business, financial condition and results of operations could be adversely affected by the material number of cancellations of unit sales in its projects.

Subdivision Projects

There are essentially two (2) different types of residential subdivision developments, which are distinguished by different development standards issued by the HLURB. The first type of subdivision, aimed at low-cost housing, must comply with Batas Pambansa Blg. 220, which allows for a higher density of building and relaxes some construction standards. Other subdivisions must comply with PD 957, which sets out standards for lower density developments. Both types of development must comply with standards regarding the suitability of the site, road access, necessary community facilities, open spaces, water supply, sewage disposal system, electrical supply, lot sizes, length of housing blocks and house construction.

Under current regulations, a developer of a residential subdivision is required to reserve at least 30% of the gross land area of such subdivision for open space for common uses, which include roads and recreational facilities.

Further, RA 7279 otherwise known as the Urban Development and Housing Act, requires developers of proposed subdivision projects to develop an area for socialized housing equivalent to at least 20% of the total subdivision area or total subdivision project cost, at the option of the developer, within the same or adjacent regions, whenever feasible, and in accordance with the standards set by the HLURB.

Failure to comply with the aforesaid requirement will result in non-issuance of the license to sell for the project.

Condominium Projects

RA 4726, otherwise known as The Condominium Act, as amended, likewise regulates the development and sale of condominium projects. RA 4726 requires the annotation of the master deed on the title of the land on which the condominium project shall be located. The master deed contains, among other things, the description of the land, building/s, common areas and facilities of the condominium project.

A condominium project may be managed by a condominium corporation, an association, a board of governors or a management agent, depending on what is provided in the declaration of restrictions of the condominium project. However, whenever the common areas are held by a condominium corporation, such corporation shall constitute the management body of the project.

Property Registration

The Philippines has adopted a system of land registration, which conclusively confirms land ownership that is binding on all persons. Once registered, title to the registered land can no longer be challenged except with respect to claims noted on the certificate of title. Title to registered lands cannot be lost through possession or prescription. Presidential Decree No. 1529, otherwise known as the Property Registration Decree, as amended, codified the laws relative to land registration to strengthen the Torrens System and streamline and simplify registration proceedings and the issuance of certificates of title.

After proper surveying, application, publication, service of notice and hearing, unregistered land may be brought under the system by virtue of judicial or administrative proceedings. In a judicial proceeding, the Regional Trial Court within whose jurisdiction the land is situated confirms title to the land. Persons opposing the registration may appeal the judgment within 15 days to the Court of Appeals or the Supreme Court. After

the lapse of the period of appeal, the Register of Deeds may issue an Original Certificate of Title. The decree of registration may be annulled on the ground of actual fraud within one (1) year from the date of entry of the decree of registration.

Similarly, in an administrative proceeding, the land is granted to the applicant by the DENR by issuance of a patent and the patent becomes the basis for issuance of the Original Certificate of Title by the Register of Deeds. All land patents (i.e. homestead, sales and free patent) must be registered with the appropriate registry of deeds since the conveyance of the title to the land covered thereby takes effect only upon such registration.

Any subsequent transfer or encumbrance of the land must be registered in the system in order to bind third persons. Subsequent registration and a new transfer certificate of title in the name of the transferee will be granted upon presentation of certain documents and payment of fees and taxes.

All documents evidencing conveyances of condominium units should also be registered with the Register of Deeds. Title to the subdivision or condominium unit must be delivered to the purchaser upon full payment of the purchase price. To evidence ownership of condominium units, a Condominium Certificate of Title is issued by the Register of Deeds.

Nationality Restrictions

The Philippine Constitution limits ownership of land in the Philippines to Filipino citizens or to corporations the outstanding capital stock of which is at least 60% owned by Philippine Nationals. While the Philippine Constitution prescribes nationality restrictions on land ownership, there is generally no prohibition against foreigners owning building and other permanent structures. However, with respect to condominium developments, the foreign ownership of units is limited to 40% by RA 4726 and the Philippine Constitution. No transfer or conveyance of a condominium unit shall be valid if the concomitant transfer of the appurtenant membership or stockholding in the condominium corporation will cause the alien interest in such corporation to exceed the aforesaid limits. Furthermore, the president or managers and directors or trustees of corporations or associations who falsely simulate the existence of such minimum stock or capital as owned by Filipino citizens, corporations, or associations shall be punished by imprisonment of not less than five nor more than fifteen years and by a fine not less than the value of the right, franchise or privilege, but in no case less than ₱5,000 (Section 2, Anti-Dummy Law).

Zoning and Land Use

Land use may be limited by zoning ordinances enacted by local government units. Once enacted, land use may be restricted in accordance with a comprehensive land use plan approved by the relevant local government unit. Lands may be classified under zoning ordinances as commercial, industrial, residential or agricultural. While a procedure for change of allowed land use is available, this process may be lengthy and cumbersome.

Under RA 6657, otherwise known as the Comprehensive Agrarian Reform Law of 1988, as amended, and the regulations issued thereunder by the DAR, land classified for agricultural purposes as of, or after, 15 June 1988, cannot be converted to non-agricultural use without the prior approval of DAR. Any person who knowingly or willfully violates this provision or any of the provisions of RA 6657 shall be punished by imprisonment of not less than one (1) month to not more than three (3) years, or a fine of not less than ₱1,000.00 and not more than ₱15,000.00, or both, at the discretion of the court.

Real Property Taxation

Real property taxes are payable annually based on the property's assessed value. The assessed value of property and improvements vary depending on the location, use and the nature of the property. Residential land in Makati City is assessed at 12% of its fair market value, while commercial land is assessed at 40% of its fair market value. Residential land in Pasig City is assessed at 20% of its fair market value, while commercial

land is assessed at 50% of its fair market value. Residential land in Quezon City is assessed at 18% of its fair market value, while commercial land is assessed at 45% of its fair market value. Residential land in San Juan City is assessed at 20% of its fair market value, while commercial land is assessed at 50% of its fair market value.

Residential buildings in the Makati City, Pasig City, Quezon City and San Juan City are currently assessed at 60% of their fair market value, while commercial buildings are assessed at 80% of its fair market value.

Residential machineries in Makati City, Pasig City and San Juan City are assessed at 50% of its fair market value, while commercial machinery is assessed at 80% of its fair market value. Residential machinery in Pasig City is assessed at 50% of its fair market value while commercial machinery is assessed at 80% of its fair market value. Industrial machineries in Quezon City is assessed at 50% of its fair market value, while commercial machinery is assessed at 70% of its fair market value.

Current real property taxes rates in Makati City, Pasig City, San Juan City and Quezon City are currently pegged at 1.5% of the assessed value of the property for residential and 2% of the assessed value of the property for commercial. In Quezon City, however, an additional 0.5% is imposed on land with assessed value of more than ₱100,000.00 effective January 25, 2012. An additional special education fund tax of 1% of the assessed value of the property is also levied annually.

Shopping Malls

Shopping mall centers are regulated by the local government unit of the city or municipality where the establishment is located. In line with this, mall operators must secure the required business permit before operating. In addition, no mall shall be made operational without complying first with the provisions of RA 9514, or the Revised Fire Code of the Philippines of 2008, and other applicable local ordinances. Furthermore, shopping malls with food establishments must obtain a Sanitary Permit. Failure to secure the necessary permits will also result in the non-renewal of the business permit.

Investments in Tourism

To encourage private Filipino and foreign investments which generate significant employment opportunities for the country, the Omnibus Investment Code of 1987 or Executive Order No. 226 grants those who invest in priority investment areas, various fiscal incentives. Among these priority investment areas is Tourism, which includes the operation tourist accommodation facilities.

The Board of Investments is in charge of implementing the grant of fiscal incentives under the Omnibus Investment Code and evaluates, approves and monitors all applicants who wish to be a registered enterprise entitled to avail of the following incentives, subject to their compliance to the terms and conditions of their registration: (i.) income tax holiday for four (4) years from commercial operation of a non-pioneer enterprise or for six (6) years from commercial operation of a pioneer enterprise; (ii.) an additional deduction from its taxable income of fifty percent (50%) of the wages corresponding to the number of direct labor for skilled and unskilled workers for the first five (5) years from the registration of the enterprise; (iii.) exemption from taxes and duties on imported capital equipment; (iv.) tax credit on the purchase of domestic capital equipment; and (v.) exemption from Contractor's Tax, among others.

Special Economic Zone

The Philippine Economic Zone Authority ("PEZA") is a government corporation that operates, administers and manages designated special economic zones ("Ecozones") around the country. Ecozones, which are generally created by proclamation of the President of the Philippines, are areas earmarked by the government for development into balanced agricultural, industrial, commercial, and tourist/recreational regions.

An Ecozone may contain any or all of the following: industrial estates, export processing zones, free trade zones, and tourist/recreational centers. PEZA registered enterprises locating in an Ecozone are entitled to

fiscal and non-fiscal incentives such as income tax holidays and duty free importation of equipment, machinery and raw materials. After the income tax holiday, the PEZA registered enterprise is subject to 5% gross income tax in lieu of all taxes, subject to conditions.

Information Technology (“IT”) enterprises offering IT services, such as call centers and business process outsourcing using electronic commerce, are entitled to fiscal and non-fiscal incentives if they are PEZA-registered locators in a PEZA-registered IT Park, IT Building, or Ecozone. An IT Park is an area which has been developed into a complex capable of providing infrastructures and other support facilities required by IT enterprises, as well as amenities required by professionals and workers involved in IT enterprises, or easy access to such amenities. An IT building is an edifice, a portion or the whole of which, provides such infrastructure, facilities and amenities.

PEZA requirements for the registration of an IT park or IT building differ depending on whether it is located in or outside Metro Manila. These PEZA requirements include clearances or certifications issued by the city or municipal legislative council, the DAR, National Water Resources Board, and DENR.

Environmental Laws

Development projects that are classified by law as environmentally critical or projects within statutorily defined environmentally critical areas are required to obtain an ECC prior to commencement. The DENR through its regional offices or through the Environmental Management Bureau (“EMB”) determines whether a project is environmentally critical or located in an environmentally critical area. As a requisite for the issuance of an ECC, an environmentally critical project is required to submit an Environmental Impact Study (“EIS”) to the EMB while a project in an environmentally critical area is generally required to submit an Initial Environmental Examination (“IEE”) to the proper DENR regional office. In the case of an environmentally critical project within an environmentally critical area, an EIS is required. The construction of major roads and bridges are considered environmentally critical projects for which EISs and ECCs are mandated.

The EIS refers to both the document and the study of a project’s environmental impact, including a discussion of the direct and indirect consequences to human welfare and ecological as well as environmental integrity. The IEE refers to the document and the study describing the environmental impact, including mitigation and enhancement measures, for projects in environmentally critical areas.

While an EIS or IEE may vary from project to project, as a minimum, it must contain all relevant information regarding the project’s environmental effects. The entire process of organization, administration and assessment of the effects of any project on the quality of the physical, biological and socio-economic environment as well as the design of appropriate preventive, mitigating and enhancement measures is known as the EIS System. The EIS System successfully culminates in the issuance of an ECC. The issuance of an ECC is a Government certification that the proposed project or undertaking will not cause a significant negative environmental impact, that the proponent has complied with all the requirements of the EIS System and that the proponent is committed to implement its approved Environmental Management Plan in the EIS or, if an IEE was required, that it shall comply with the mitigation measures provided therein.

Project proponents that prepare an EIS are required to establish an Environmental Guarantee Fund (“EGF”) when the ECC is issued to projects determined by the DENR to pose a significant public risk to life, health, property and the environment or where the project requires rehabilitation or restoration. The EGF is intended to meet any damages caused by such a project as well as any rehabilitation and restoration measures. Project proponents that prepare an EIS are mandated to include a commitment to establish an Environmental Monitoring Fund (“EMF”) when an ECC is eventually issued. In any case, the establishment of an EMF must not be later than the initial construction phase of the project. The EMF shall be used to support the activities of a multi-partite monitoring team which will be organized to monitor compliance with the ECC and applicable laws, rules and regulations.

Aside from the EIS and IEE, engineering geological and geo-hazard assessment are also required for ECC applications covering subdivisions, housing and other land development and infrastructure projects. Any person, corporation or partnership found in violation of this requirement, or the terms and conditions in the

issuance of the ECC, shall be punished by the suspension or cancellation of his/its certificate and/or a fine in an amount not to exceed ₱50,000.000 for every violation thereof.

All development projects, installations and activities that discharge liquid waste into and pose a threat to the environment of the Laguna de Bay Region are also required to obtain a discharge permit from the Laguna Lake Development Authority Authority (“LLDA”). Disapproved applications or suspended or revoked discharge permits shall not grant any right or privilege to the applicant or former permit holder to discharge its liquid waste into the environment. If the applicant proceeds to discharge despite disapproval of application or suspension/revocation of discharge permit, LLDA may direct the discharger to discontinue from further discharging its liquid waste into the lake or its tributary rivers, or stoppage of discharger's operations, and impose the fines and penalties at the existing rate applicable and provided for by law, without prejudice to criminal prosecution under applicable laws.

INTRODUCTION

Rockwell Land Corporation's net income after tax (NIAT) for the year ended December 31, 2012 amounted to ₱1.1 billion. The Company's net income grew by 19% compounded annually since 2010. As a percentage to revenues, this year's net income was at 16%, same as 2010 but slightly higher than 2011's 15%. 2011's 15% NIAT margin was mainly due from higher cost of real estate and selling of The Grove Towers A&B in Pasig City, which has a slightly lower margin compared to other projects like One Rockwell and Edades Tower and Garden Villas (Edades).

NIAT for the first six months of 2013 amounting to Php555.0 million was up by 26% from last year's Php442.1 million. NIAT margin was slightly higher at 17% due to higher sales and construction completion from Edades and 205 Santolan.

The following table shows the breakdown of the revenues by business segment for the periods 2010-2012.

Note:

1. Revenues from this segment consist of the following projects in the years indicated: One Rockwell (2010 to 2011), The Grove Phase 1 (2010 to 2012), Edades (2011 to 2013), 205 Santolan (from June 2012 to 2013), The Grove Phases 2 & 3 (from November 2012 to 2013).
2. Amounts exclude revenues from RBC. Under the Accounting policy for a jointly controlled entity, results of operations of RBC is not consolidated line by line.
3. These amounts represent the Company's share in the net income after tax of RBC.

Total revenues grew to Php6.8 billion for the year ended December 31, 2012, growing at a compounded annual rate of 17% since 2010. Residential development accounts for 86% of the total revenues in 2012 from its 83% share in 2010, as more residential projects were simultaneously developed. Three residential projects started revenue recognition in 2012 namely: 205 Santolan (June 2012), Grove Phase 2 or Tower C & D (November 2012) and Grove Phase 3 or Tower E & F (December 2012).

Total consolidated revenues for the six months ending June 2013 amounting to Php3,237.4 million grew by 26% from last year's Php2,576.2 million.

Reservation sales for the year 2012 reached Php9.2 billion achieving a substantial growth of 87% vs. 2011's Php4.9 billion. Nearly half of 2012's sales come from new projects, Proscenium and 205 Santolan. As of year to date June 2013, reservation sales amounting to Php7.1 billion grew by 74% due to the launch of the first three towers of Proscenium (November 2012 and February 2013) as well as the strong demand for The Grove Phase 2 and 3.

EBITDA for the year ended December 31, 2012 amounting to Php2.1 billion represent 31% of total revenues. A lower EBITDA ratio to total revenues was reported for year 2011 at 26% because of The Grove project in Pasig City, which had higher costs of real estate and selling. EBITDA is derived by adding interest expense, depreciation and amortization and provision for income tax to Net Income. EBITDA has grown annually by 19% since 2010, where Residential Development grew faster at a rate of 23% vs. the 14% growth reported for Commercial Leasing. In the same year where EBITDA margin was at its lowest, at 26% of total revenues, EBITDA still grew by 9% vs. 2010's Php1.5 billion due to a significant improvement in the occupancy of the Rockwell Business Center (RBC) in 2011 when it reached 95% from 2010's 79%.

Residential Development accounts for 61% of 2012's total EBITDA, up from previous years. As of year to date June 2013, Residential Development accounts for 59%.

The ratio of cost of real estate and selling to total revenues registered at 62% vs. a high of 67% reported in 2011 due mainly from The Grove Towers A & B (refer to earlier discussion). As of year to date June 2013 and same period last year, the ratio was at 58%.

General and Admin Expenses (G&A) for the year ended December 31, 2012 amounting to Php871.7 million represent 13% of the total revenues, which is within the ratios reached in 2011 (12%) and 2010 (14%). The level was slightly higher in 2012 due to taxes relating to the Mortgage Trust Indenture (MTI) agreement to secure the Php4.0 billion corporate notes drawn in April 2011, which was later refinanced with the Php10.0 billion 7 year corporate notes drawn in tranches starting January 2013. While in 2011, the growth in G&A was coming from higher transfer fees of completed units to condominium corporations.

As of year to date June 2013, the G&A ratio was higher at 15% than the ratios reported for years ending 2010 to 2012 due to the recognition of expenses for the Employee Stock Option Plan (ESOP) granted in January 2013.

The Interest Expense amounting to Php266.2 million for the year 2012 was up by 38% due to the additional Php1.5 billion debt, which was part of the Php4.0 billion corporate notes entered in April 2011 to partially fund the land acquisition made from years 2011 to 2012. The Php4.4 billion debt level as of the end of 2012 has lower average interest rate of 6.6% p.a. vs. prior years 2011 (7.1% p.a.) and 2010 (8.8% p.a.), reflective of the strengthening economy in the Philippines.

As of June 2013, debt level amounting to Php6.9 billion has an average interest rate of 4.8% p.a., which is lower than June 2012's average of 6.8% p.a. Interest Expense grew by 14% as of year to date June 2013 due to the additional Php3.0 billion corporate notes drawn last March and May 2013, which was part of the Php10.0 billion corporate notes entered into last November 2012 for the refinancing of the old corporate notes drawn in 2011, to fund the office development projects, Lopez Tower (Makati City) and Tower 3 of RBC (Ortigas), and the remainder for land acquisition.

Other comprehensive income represents the fair value changes of the Company's available for sale investments and is directly charged to equity and remeasurement adjustment on pension.

Total Assets as of December 2012 amounted to Php20.7 billion. The increase of Php2.7 billion from year end 2011 was mostly from land acquisition, recognition of receivables from ongoing projects and higher development costs for The Grove Towers C to F and the run up of costs for 205 Santolan and Edades which are projects due for final completion within the next 6-9 months from the date of this prospectus.

Total Assets as of June 2013 grew to Php24.2 billion due to the additional debt drawn on the Php10.0 billion corporate notes. Other Current Assets grew due to collection from sale of Proscenium.

By the end of 2012, Net debt level was at Php3.9 billion which stands at 0.39x of total equity. Majority of the debt carried by the end of 2012 was a Php4.0 billion fixed-interest term loan drawn in April 2011 and 2012.

As a result of higher margins from residential & commercial projects in 2012, ROE increased to 11.7% compared to previous year's 10.4%.

The annualized ROE as of June 2013 was at 10.7%, higher than June 2012's 9.5%.

FOR THE YEARS ENDED DECEMBER 31, 2012, 2011 AND 2010

REVIEW OF 2012 VERSUS 2011

Total revenues amounting to ₱6.8 billion grew by 9% vs. last year's ₱6.3 billion. About 82% of the revenues came from sale of condominium units, including accretion of interest income, amounting to ₱5.6 billion. Reservation sales reached ₱9.2 billion achieving a substantial growth of 87% from previous year's ₱ 4.9 billion. Half of the Reservation Sales mainly came from new projects 205 Santolan and Towers Kirov and Sakura of Proscenium.

Total EBITDA amounted to ₱2.1 billion, which is 29% higher than last year's ₱1.6 billion. This year's growth was driven by Residential Development with growth of 49%vs. last year. Total EBITDA margin registered at 31% of total revenues in 2012, higher than 2011's 26% but slightly up from 2010's 30%. The growth was due to lower costs of real estate and selling for completed projects One Rockwell and The Grove Phase 1. EBITDA margin is derived by dividing EBITDA amount to consolidated revenues or segment revenues, whichever is used or specified. Contributions to total EBITDA from residential development and commercial leasing are currently at 61% and 39%, respectively.

Resulting net income after tax amounts to ₱1.1 billion, up by 24% from previous year's net income of ₱0.9 billion.

The net income after tax margin is at 16% of total revenues vs. previous year's 15%. The net impact of higher cost of real estate and selling ratio in 2011 was reduced by a lower tax provision in 2011. The effective income tax rate is lower than the statutory rate of 30% in 2012 due to the Company's share in the income of RBC, which is no longer subject to income tax.

Business Segments

The details of the individual performance of each business segment, in terms of revenues and EBITDA, are discussed as follows:

Residential Development contributed 86% of the total revenues of 2012. Total revenues reported from the sale of condominium units, including accretion of interest income, amounted to ₱5.6 billion. The 11% growth in this segment's revenue was primarily attributable to higher sales and percentage of completion of Edades and the start of revenue recognition for 205 Santolan in June 2012, The Grove Phase 2 in November 2012 and Phase 3 in December 2012, despite the drop in revenue contribution from One Rockwell's final completion in 2011 and from higher accomplishment from Towers A&B of The Grove in 2011 as it runs up to its final completion the year after.

Sales take up grew substantially by 87% to ₱9.2 billion from last year's ₱4.9 billion; with half of the sales coming from newly launched projects Kirov and Sakura Towers of Proscenium and 205 Santolan. The Company expects strong reservation sales to continue in 2013 with the launch of the third tower of Proscenium and the launch of the properties in Quezon City and San Juan City, which were both acquired in 2012.

EBITDA from this segment amounted to ₱1.3 billion and contributed 61% to the total EBITDA of ₱2.1 billion. EBITDA grew 49% due mainly from higher sales and construction completion of the ongoing projects and the lower cost of real estate ratio to total revenues from Towers A&B of The Grove in 2012 compared to last year, as costs from the latter reflect actual costs as it nears completion. Similarly in 2012, lower costs were used for 205 Santolan and Edades projects to reflect current prices.

Commercial Leasing revenues amount to ₱965.7 million, which is 3% higher than last year's revenues of ₱941.5 million. This segment contributes 14% to total revenues. This excludes the share in the joint venture (RBC) as this is reported as "Share in Net Losses (Income) of JV" under Other Income (Expenses) and not consolidated line by line in the consolidated financial statements.

The details of the performances per source of revenue stream are explained as follows:

- Revenues from Retail operations amount to ₱760.2 million and accounts for 11% of Total revenues. About 90% comes from retail leasing amounting to ₱688.2 million. It grew by 3% vs. last year's revenues of ₱737.9 million. This mainly resulted from rental escalation and the replacement of underperforming stores with new and better performing tenants. Same stores sales growth was at 5% in 2012.
- Cinema Operations amounted to ₱205.5 million and accounting for 3% of the total revenues. It slightly grew by 1% from last year's ₱203.6 million. This was driven by higher occupancy in 3D and 2D titles compared to last year.
- Office Leasing, operated under the Rockwell-Meralco BPO Venture, generated gross revenues of ₱289.7 million, which is 12% higher than last year's ₱258.1 million due to higher average occupancy of the buildings from 90% to 97%. At its 80% share, the Company generated revenues of ₱231.8 million and share in net income of ₱98.5 million. To reiterate, only the ₱98.5 million share in net income of RBC is reflected in the Company's consolidated statements of comprehensive income as "Share in Net Losses (Income) of JV".

The segment's EBITDA amounted to ₱810.7 million, which accounts for 39% of the total EBITDA of ₱2.1 billion. EBITDA grew by 6% from last year's EBITDA of ₱764.8 million. Margin to total segment revenues improved to 84% from last year's 81% as a result of the significant improvement in the office segment of the company. The total revenues used as basis for the EBITDA margin excludes gross revenues from the office leasing or RBC operations as the latter is reported separately under "Share in Net Losses (Income) of JV". By 2012, the Company reported higher revenues from the operations of the RBC. Share in net income in the joint venture contributes 5% to the Company's total EBITDA.

Costs and Expenses

Cost of real estate and selling amounted to ₱4.3 billion in 2012. The percentage to total revenues is at 62%, down from last year's 67% ratio. This is mainly due to higher margins derived from sold projects this year compared to previous year.

General and administrative expenses (G&A) amounted to ₱871.7 million and represent 13% of the total revenues, an increase from last years' ratio of 12%. The level of expenses grew by 18% vs. last year's ₱739.4 million. Higher G&A expenses were reported for manpower costs and taxes and licenses. Manpower costs increased due to increase in headcount to 173 from 154 regular employees for the Company's new projects. Taxes and Licenses grew by 41% due to taxes relating to the Mortgage Trust Indenture (MTI) agreement to secure the ₱4.0 billion corporate notes, and higher business permits.

Interest Expense amounted to ₱266.2 million, which is 38% higher than last year's ₱193.6 million. The increase was mainly due to the additional ₱1.5 billion debt secured to partially fund land acquisition. Average interest rate,

however, improved significantly with the 2nd tranche of corporate notes of ₱1.5 billion drawn on April 2012 with an annual fixed rate of 5.85% vs. the drawdown in April 2011 with interest rate of 7.33%. By the end of 2012, total debt amounting to ₱4.4 billion has an average interest rate of 6.57%, lower than last year's 7.1%.

Share in Net Losses (Income) of JV recorded a net income of ₱98.5million. This is a 23% improvement from last year's net income of ₱79.9 million. The improvement was mainly due to the level of average occupancy which increased from 90% to 97% in 2012. The share in net income is reported net of taxes and represents the Company's share in the operations generated by RBC.

Provision for Income Tax

Provision for income tax amounted to ₱437.6 million, which is 50% higher than last year's provision of ₱291.0 million. The increase in effective tax rate is primarily attributable to higher taxable income from residential development in 2012.

Project and capital expenditures

The Company spent a total of ₱7.3 billion net of VAT for project and capital expenditures in 2012, which is 67% higher than same period last year. The increase was primarily on development costs of ongoing projects.

FINANCIAL CONDITION

Total Assets as of December 31, 2012 amounted to ₱20.7 billion. It increased by ₱2.7 billion from last year's amount of ₱18.0 billion. Assets mainly grew from land acquisitions, recognition of receivables from ongoing projects and higher development costs. Land acquisitions were partially funded by a long-term loan facility drawn in April 2011. Bridge financing were availed starting August 2012 to fund development costs for Edades and Towers A&B of The Grove, as the latter approaches final completion by end of year. Other funding requirements were funded internally by revenue collections from commercial leasing.

Current ratio as of December 31, 2012 improved to 2.86x from 2.78x the previous year. Likewise, Net debt to equity ratio increased to 0.39x in 2012 from 0.26x in 2011.

Other Matters

The Company acquired a 3.1 hectare property in Cebu City in September 2012 and in Santo Tomas Batangas last November 2012. REVIEW OF 2011 VERSUS 2010

RESULTS OF OPERATIONS

Total revenues amounting to ₱6.3 billion grew by 26% vs. last year's ₱5.0 billion. About 82% of the revenues came from sale of condominium units, including accretion of interest income, amounting to ₱5.1 billion. Sales take up was still strong in 2011, although slightly lower than last year due to fewer higher-valued products available for sale in the market. Due to the continued strong take up of the Company's products in the market, the Company will launch two new projects in 2012.

Total EBITDA amounted to ₱1.6 billion, which is 9% higher than last year's ₱1.5 billion. This year's growth was driven by Commercial Leasing's office segment. The EBITDA margin registered at 26% of total revenues in 2011, which is lower compared to last year's 30% because higher costs of real estate and selling were recognized for The Grove due to higher construction completion in 2011 vs. same period last year. EBITDA margin is derived by dividing EBITDA amount to consolidated revenues or segment revenues, whichever is used or specified. Contributions to total EBITDA from residential development and commercial leasing are currently at 53% and 47%, respectively.

Resulting net income after tax amounts to ₱907.5 million, up by 14% from previous year's net income of ₱795.5 million.

The margin of net income after tax is at 15% of total revenues vs. previous year's 16%. The net impact of higher cost of real estate and selling ratio in 2011 was reduced by a lower tax provision in 2011. The effective income tax rate was lower in 2011 because the Company's share in the income of RBC is no longer subject to income tax.

Business Segments

The details of the individual performance of each business segment, in terms of revenues and EBITDA, are discussed as follows:

Residential Development contributes bulk of the total revenues of 2011. Total revenues reported from the sale of condominium units, including accretion of interest income, amount to ₱5.1 billion. This accounts for 82% of the total revenues of the Company. The 29% growth in segment revenue was primarily attributable to higher sales and percentage of completion of The Grove and the start of recognition in April 2011 of revenues from Edades, despite the significant drop from One Rockwell's completion in October 2011. Revenues recognized for any given period is a function of both the percentage of completion of construction works and the incremental sales recorded for the period.

Sales take up declined to ₱4.9 billion from last year's ₱6.4 billion as a result of having fewer inventories of higher-valued units by the start of the year. In terms of units sold, take up was only slightly lower by 8%. The Company expects to have significant growth in sales take up with the new projects from the recently acquired lots in Makati and Quezon City, which are both due for launch in 2012.

EBITDA from this segment amount to ₱857.1 million and contributes 53% to the total EBITDA of ₱1.6 billion. Despite high revenue growth, EBITDA grew at a slower pace of 1% due mainly from higher costs of real estate and selling expenses. Higher construction accomplishment for The Grove and Edades have increased both the cost of real estate and selling expenses, with the latter's amortization of prepaid commissions and marketing costs. The said amortization of prepaid costs and higher sales commissions grew in line with revenue growth, while marketing expenses grew faster to support the introduction in August 2011 of phase three or Towers E & F of The Grove.

Commercial Leasing revenues amount to ₱941.5 million, which is 9% higher than last year's revenues of ₱866.8 million. This segment contributes 15% to total revenues. This excludes the share in the joint venture (RBC) as this is reported as "Share in Net Losses (Income) of JV" under Other Income (Expenses) and not consolidated line by line in the consolidated financial statements.

The details of the performances per source of revenue stream are explained as follows:

- Retail Operations amount to ₱737.9 million and accounts for 12% of total revenues. About 89% comes from retail leasing amounting to ₱657.9 million. Retail leasing accounts for 11% of the total revenues of the company, which grew by 9% vs. last year's revenues of ₱603.6 million. This mainly resulted from rental escalation. Revenues from exhibits grew faster at 26%, generating full year revenue of ₱43 million. Same stores growth was at 5% in 2011.
- Cinema Operations amount to ₱203.6 million and it accounts for 3% of the total revenues. This grew by 3% from last year's ₱198.6 million. This was driven by higher occupancy of 3D and 2D tickets compared to the same period last year.
- Office Leasing, operated by the Rockwell-Meralco BPO Venture, generated gross revenues of ₱258.1 million, which is 73% higher than last year's ₱149.0 million due to higher occupancy of the buildings. At its 80% share, the Company generated revenues of ₱206.5 million and share in net income of ₱79.9 million. To reiterate, only the ₱79.9 million share in net income of RBC is reflected in the Company's consolidated statements of comprehensive income as "Share in Net Losses (Income) of JV".

The segment's EBITDA amounted to ₱764.8 million accounting for 47% of the total EBITDA of ₱1.6 billion. EBITDA grew by 22% from last year's EBITDA of ₱628.0 million. Margin to total segment revenues improved to 81% from last year's 72% as a result of the significant improvement in the office segment of the company. The total revenues used as basis for the EBITDA margin excludes gross revenues from the office leasing or RBC operations as the latter is reported separately under "Share in Net Losses (Income) of JV". By 2011, the Company reported for the first time a positive share in net income from the operations of the RBC. The improvement resulted from both higher average rental rates booked for new tenants and in the significant improvement of the level of occupancy from last year's 79% to this year's 95%. Share in net income in the joint venture contributes 5% to the Company's total EBITDA amounting to ₱1.6 billion.

Costs and Expenses

Cost of real estate and selling amounts to ₱4.2 billion in 2011. The percentage to total revenues is at 67%, up from last year's 61% ratio. This increase was due to higher construction completion of Towers A& B of The Grove whose margins are slightly lower compared to projects sold in Makati City. Selling expenses increased by 38% due to increased amortization of prepaid costs using the same percentage of construction completion and continued strong sales take-up performance which increased by 16% over same period last year.

General and administrative expenses (G&A) amount to ₱739.4 million and represents 12% of the total revenues, an improvement from the previous years' ratio of 14%. The level of expenses grew only by 10% vs. last year's ₱671.4 million. Higher expenses were reported for manpower costs and taxes and licenses. Manpower costs increased due to a 15% increase in headcount from last year's 134 to this year's 154. Taxes and Licenses grew by 39% due to business permit and payment of transfer and registration fees required in transferring titles of land to condominium corporations of fully sold projects.

Interest Expense amounted to ₱193.6 million, which is 25% higher than last year's ₱155.4 million. The increase was mainly due to additional ₱1.0 billion debt secured to partially fund land acquisition. Average interest rate, however, improved significantly with the refinancing of the ₱1.5 billion corporate notes of the RBC in April 2011 with fixed rate of 7.3% p.a. from the previous rate of 8.8% p.a.

By the end of 2011, total debt amounting to ₱2.9 billion has an average interest rate of 7.1% p.a., lower than last year's 7.8% p.a.

Share in Net Losses (Income) of JV recorded positive income of ₱79.9 million from last year's loss of ₱1.0 million. The improvement was mainly due to the level of occupancy which increased from 79% to 95% in 2011. The share in net income is reported net of taxes and represents the Company's share in the operations generated by RBC.

Provision for Income Tax

Provision for income tax amounted to ₱291.0 million, which is 3% lower than last year's provision of ₱298.9 million. The decrease in effective tax rate is primarily attributable to the share in net income of RBC which is not subject to income tax.

Project and capital expenditures

The Company spent a total of ₱4.4 billion net of VAT for project and capital expenditures in 2011, which is 13% higher than same period last year. The expenditures for 2011 consist of 46% land acquisition, 49% residential development cost, and 6% property and equipment costs.

Decreases in residential development cost came mostly from One Rockwell with the completion of the construction of the West Tower in October 2011. The significant increases were investments recorded for the Edades and The Grove projects.

FINANCIAL CONDITION

Total Assets as of December 31, 2011 amounted to ₱18.0 billion, which increased by ₱4.0 billion from last year's amount of ₱14.0 billion. Assets mainly grew from land acquisitions, recognition of receivables from ongoing projects and higher development costs. Land acquisitions were partially funded by a long-term loan facility drawn in April 2011. Bridge financing were availed throughout the year to fund development costs for The Grove. Other funding requirements were funded internally by revenue collections from commercial leasing.

Current ratio as of December 31, 2011 is healthy at 2.78x from 1.36x the previous year. Likewise, Net debt to equity ratio improved to 0.26x in 2011 from 0.32x in 2010.

Other Matters

The Company acquired a 1.8 hectare property along Santolan Road in Quezon City and a 3.6 hectare property at the corner of J.P. Rizal Avenue and Estrella Street in June 2011 and November 2011, respectively. These projects will be launched in the first quarter and second half of 2012, respectively. The first property will become the company's first townhouse development and the second property, Proscenium project, is meant to expand the Rockwell Center in Makati City with another mixed-used development.
